

# SAFE WORK CERTIFIED AUDIT TIMELINE

To ensure employers that achieve SAFE Work Certified receive their prevention rebate payments in a timely manner, SAFE Work Manitoba has put in place service level agreements for completing the SAFE Work Certified audit process. As a Certifying Partner (CP), we ask that you meet these timelines to ensure an efficient process for your member employers.

\*NOTE: the five business days for the employer to complete and send back the SAFE Work Certified Auditor Evaluation Form are the same five business days the CP is conducting quality assurance on the audit file.
